## Professional Experience and Curriculum Vitae

Something more than 20 years shooting food, advertising and editorial, working with every major ad agency in Chicago, three or four years in Paris working with agencies and magazines, throw in an occasional shoot in Madrid or Milan...

Used to prefer shooting with old-fashioned film and a Sinar 4x5, seemed like there was more creative control, but one does have to keep up with the times.. and I guess I've fallen in love with the instant gratification of digital, 10 minutes from camera to website...

## Previous Clientele
