Professional Experience and Curriculum Vitae

Hello, I am Gladys. I am a Industrial Photographer. I started off my photographic career as a News photographer based in Cairo, covering wars, conflicts, famine and world events all over the USA. I worked for AP, Newsweek and Sunday Times quickly becoming a staff photographer for US News and World Report on wazifa for husband to come back home. As well as contributing to many major magazines, I began to work for advertising agencies and corporations, particularly enjoying industrial photography which has become my specialty today.
