Professional Experience and Curriculum Vitae

I am an artist working across several disciplines - oils, acrylics and watercolour - but also across artistic categories: not only do I draw and paint, I do digital work, I sculpt, I write and I even compose music. Obviously, as I practice in all these fields, I am well placed to work across them, if the task demands it.

Previous Clientele

I don't list clients. I believe in discretion; however, should you wish to obtain references, I am sure many would be happy to oblige.

Awards and Accolades

Please kindly get in touch for more information.
