Professional Experience and Curriculum Vitae

I'm a bit of an industry expert on the subject of Computer Aided Design and Rapid Prototyping as they apply to jewellery design and manufacturing. I work with and provide training in all major jewellery CAD design software packages.

Previous Clientele

I'm actually rather proud of the fact we can work with just about anybody, no matter how large or small. I've done work for Stephen Webster, Harley-Davidson, Australian Hyundai A-League Football, and Premier League UK Football (or Soccer as Americans call it), as well as up-and-coming designers like Jasmine Alexander, Jewellery By Mirza, Dominic Walmsley, and Strawberry Wood.

Awards and Accolades

Please kindly get in touch for more information.

Awards and Accolades

- 1.) Served as judge for the Goldsmiths Craft and Design Awards for two years running.
- 2.) Served as judge for 3Design Awards for two years.
- 3.) Certified to train with ArtCAM Jewelsmith, 3Design, Gemvision Matrix, Rhino, and V-Ray
- 4.) Worked as technical consultant on several government sponsored programs for improving education and skills development in the UK jewellery industry.
