## **Professional Experience and Curriculum Vitae**

I am a Psychic Medium whose inspiration of my work comes from Spirit on the other side of life.

My art Guide works through me, to paint our colourful designs. The message Spirit wants to relay with our unique artwork that enlightens the soul of those who view it. Is that the more colour we absorb the healthier and stronger of both body and Spirit we are.

Our work shows a myriad of Colour combinations, depth and designs that are derived from another dimension. One can immerse themselves in the detail of delicate movements of colour as it comes alive on the canvas, reflecting the way we should all live together and with our environment.

The perfectly balanced canvases reflect the way nature must be balanced to thrive. The health of our Planet is important in helping sustain the universe.
