## Professional Experience and Curriculum Vitae

Haydn // Photographer

[www.haydnrydings.co.uk](http://www.haydnrydings.co.uk)

I'm a professional freelance photographer, striving to create original, modern and creative photographs, to give the client distinctive and thought provoking imagery.

I travel the length and breadth of the UK, and even further afield as Europe, capturing:

- Stylish advertising, promotional and marketing photography, for websites, brochures, advertising and editorial features.
- Band promotion and live performances
- Sleek office premises, modern architecture, interiors, and your staff members
- Corporate events, conferences, exhibitions, award ceremonies and functions
- Intimate and special one off wedding moments, and family gatherings whatever the occasion.

I listen and work closely behind the scenes with each client to best understand their needs, and using a creative eye and expertise to get the best results, slip effortlessly into the background.

## Previous Clientele

MTV International  
BBC  
M.E.N Media Group
