Professional Experience and Curriculum Vitae

Human Touch was established by a group of Thai designers. In 1998, we exhibited our belief in design for the first time in The Bangkok International House and Giftware Fair, an event which marked the milestone for us as a new wave of Thai creative & design industry.

Among the earliest of our works were "Think Glass" set of five and series of cute & creative couple product named 'Boy meets Girl' which are now selling over 400,000 pieces worldwide.

A decade after, with more than 200 copyright designs Human Touch is recognized as a brand of gift product design from Asia. Each piece is still emotionally created with the same spirit of our first day.

How to make your other half know what you are feeling ?

There are a million ways to make your couple life fresh and colorful. Some ways can be sweeter than kissing on the cheeks, sending a bouquet of flowers, etc.
Boy Meets Girl believes that "Action speaks louder than Words" It doesn't matter if you have different lives. Never let it stop you from showing how you feel because what matters the most is the assurance to your other half how much he/she means to you.
