

## Professional Experience and Curriculum Vitae

Hello, Welcome to my I?U design jewels shop.

This is the animal world full of cats, giraffes, birds, teddies, dogs, deers and many others handmade jewels which I make with ?

This is the I?U story:

Once upon a time, there was an art school student with an incredible taste to play and create. All days long she was just drawing, cutting, sewing and decorating until the day when she found a bunch of joyful animals in the corner of her workshop. She named them I?U and since then has been giving her products an original design as well as careful manual work.

I?U produces a wide range of brooches, earrings, tiaras, pedants, necklaces and others by using materials such as leatherette, textile, steel or perspex, some of them are decorated with the Swarovski crystals. I?U guarantees that every single piece is an original made with love (as the brand's name suggests).
