Professional Experience and Curriculum Vitae

Creative, passionate, and curious when it comes to design, music and technology. I'm sociable, hard worker and easy to work with. Methodical, organized when it comes to design, productive under pressure, willing to learn quickly, great attitude towards change, able to lead, with plenty knowledge in areas like photography, online marketing, new technologies and post production of audio and video. Currently expanding his knowledge on digital printing, live audio, and 3D creation, in other words, a multitasker in search of new challenges.
