Professional Experience and Curriculum Vitae

I am a jack of all trades. I pride myself on being able to adapt to any creative field. I have a honours degree in Information Design and am a professional photographer. I also do 2D animations when inspiration strikes. In my free-time I paint with water colours or create coffee table books. I love illustration especially used for 2D animation. I have a quirky style and I love exploring the world of words. I currently run my own small photography business and do design work on the side, always searching for another creative venture. :-)
