Professional Experience and Curriculum Vitae

Hey, my name is Jesse Wilks, I'm 23 from Toronto Ontario. Currently in my third year, pursuing a Bachelors Degree in Creative Advertising at Humber Lakeshore. Right now I'm seeking out internships and essentially looking to expand my knowledge of the field and have a good time doing it!

So far most of my work experience in life has been mostly as a musician, which of course means it's been equally playing music and working at factories and call centers when not on tour haha!

After about 8 years of that, I'm now back at school, working on a career in advertising and marketing.

If there's anything else you might be interested by all means just ask!

Previous Clientele

For school so far this year, I've worked on three accounts, Tourism Toronto, Goorin Bros, and currently working on Netflix right now. Since this is for school these were of course not campaigns that we're actually rolled out by the client, but instead to show our "creative potential".

Awards and Accolades

Please kindly get in touch for more information.

Awards and Accolades

In grade 8 I won the music award, since then I've had a pretty steady losing streak actually.
