## **Professional Experience and Curriculum Vitae**

J Group Robotics™ pushes the limits of technology to create 3D printers of the utmost quality. With the highest of ethical standards and pure dedication to excellence in all operational aspects, we aspire to exceed our customers' expectations.

We recognize one of the most challenging issues to date is environmental conservation, and are uncompromising in our dedication to this integral element in all our business activities.

To meet the exacting requirements of the medical market, jewelry market, engineering & healthcare market we have developed 3D printers which can produce with 99% shape accuracy. We have also created visual solutions that integrate hardware and software.
