Professional Experience and Curriculum Vitae

Hello! I am currently in my third year of university, studying Graphic Communication at UCA Farnham. Designed Magazines are my favourite part, I love the smell of a new book. The feel of the paperstock, and the perfectly typeset design. It really gets me going. Wallpaper, Defying Gratification, eye magazine, Creative Review and IDN are just some of my favourites.

In my third year I will try my best to push my boundaries, as its something that I have struggled with throughout my creative education. Yes I'm a perfectionist, and i like things neat and tidy, but I need to break out of my box! So wish me luck :)

Previous Clientele

I have done numerous work experience placements, all details of these are on my LinkedIn profile and Behance site.
