online

MUJI website organisemylife.com could organise your computer desktop alphabetically/by date as soon as you click on the url.

shop

As you hover your mouse over the site, it only travels in right angles. Likewise, when you click to select a section to peruse, the remaining objects on the page travel tetris-like to organise themselves at the bottom of the page.

order & organise

The planner allows customers to input the space they wish to organise in sqm² and Muji will advise products to fit the space accordingly, based on a chosen selection.
