Professional Experience and Curriculum Vitae

I'm a total design nerd, Sci-Fi movie enthusiast, and reckless furniture re-arranger. I love typography and branding, I'll even buy a new type of tea if I like the packaging. I love to nit pick about details but won't lose sight of the big picture.

Since graduating from the design program at Sac State I've done work for start up businesses, University programs, event promotions and even government agencies. I am passionate about the work that I do and I strive for excellence in both my personal and professional life. Here you will find a collection of my work and process, so feel free to take a look around. I hope you find that I have an eye for quality design and an attention to detail.

If you happen to like what you see and would like to have me do some work for you please don't hesitate to contact me. I'm always in search of an opportunity to do great work with great people. Maybe it'll be you.
