THE NEW BLACKBERRY® CURVE™.
ALL BLACKBERRY, ALL SMARTPHONE.
WE FIND IT HARD TO COMPROMISE.

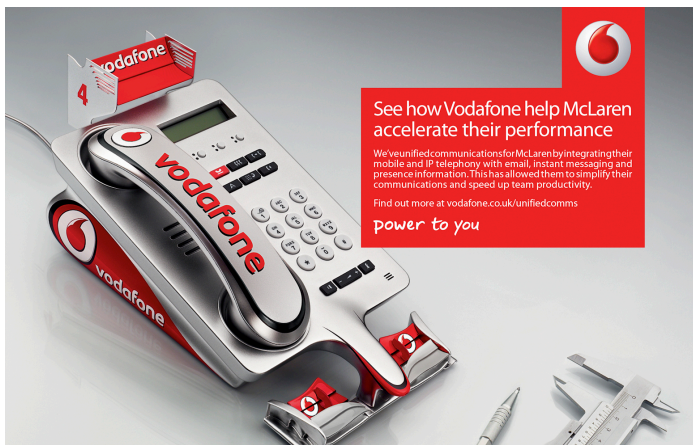

No half this, a little bit of that. New BlackBerry® Curve™ smartphone has everything you could want from both a smartphone and a BlackBerry. Not only is it thin and stylish, but it's also the most feature-rich BlackBerry yet, allowing you to do more. BlackBerry services mean you can read your emails on a secure business-grade system, organise your schedule, download and view files, and browse the web all with one sleek durable handset. Plus it's filled with a bunch of new smartphone media features and a big crystal clear screen. So now you can also view video clips, take pictures and play mp3s too. All this and it's still the smallest and lightest full QWERTY blackberry. How did we do it? New BlackBerry Curve, a smarter kind of smartphone.

**See how Vodafone help McLaren
accelerate their performance**

We've unified communications for McLaren by integrating their mobile and IP telephony with email, instant messaging and presence information. This has allowed them to simplify their communications and speed up team productivity.

Vodafone provide more than mobiles for Southend-on-Sea Borough Council

Vodafone has unified Southend-on-Sea Borough Councils' fixed, mobile and contact centre communications. With 30% of employees working remotely, they have boosted staff productivity and enabled a faster, more direct delivery of front line services to their local community.
