Professional Experience and Curriculum Vitae

ART DIRECTION - DESIGN - ILLUSTRATION

José Bernabé (1979) is an art director and designer with an extra passion for illustration. He enjoys developing concepts, translating them visually in the appropriate style but also carries on designing, illustrating and gets his hands dirty in all the process.

'That's what i do. I like to be involve in all the process since the begining and this is how i feel fulfilled about me work.

'I'm a autodidact who absorbs all kinds of knowledges about design, illustration, art, communication, photography, films and music to achieve a wide vision and criterion necessary to choose, develop and coordinate the appropriate style for the delivery of the message'.

José is always in continual learning and experimentation, taking risks to bring a fresh perspective for the stile, playing with the intelligence of the public and reaching their emotions to make the message recognizable and perdurable in time.
