## Professional Experience and Curriculum Vitae

I'm experienced in graphic & motion design and in visual identity. I'm a self-taught man, and i have been a professional freelance designer since 2001. Then my passion became my job when i first was asked for design works, while i was still going to school. Selected artist in the category «Electronic Arts» of the Biennial of Young Creators from Europe and the Mediterranean in 2001, i benefited from the medias back up of this great event to make myself known through my artistic works, in order to carry off personal projects, parallel to my works on order.

I have always been devoted in sharing my knowledge and views on graphic design as a part of the team of journalists working in the «Studio Multimedia» French magazine, published by Posse Press. I also published books on Photoshop and GIMP, and recorded a whole e-learning course on Photoshop, Lightroom, After Effects and Flash for Tuto.com, using a screencasting process. I'm also an Adobe CS educator in one the best european visual effects school : Art FX.

I'm looking for works & collaborations in art direction, static & rich media or motion design, regardless of their worldwide location, to go further in my visual style and research.
