Professional Experience and Curriculum Vitae

Let's keep it simple...I am determined to live each day doing what I love. Right now that includes surface design, graphic design, and photography. Some would call my love of French culture an obsession – I choose to call it passion. I could (and will soon) live the rest of my life eating olives along the Mediterranean and riding the trains of Europe.

Each day, each step in this adventure as a working artist, gets better and better, and I learn more about myself and how I see the world.

I am available for all sorts of projects, commissions, and collaborations. If your product needs artwork, or you love pure black and white photography, let's chat! I also have two great ebooks if you are ready to make your trade show dreams a reality!

Previous Clientele

Nordstrom
Eddie Bauer
