Professional Experience and Curriculum Vitae

I'm a self taught creator of all sorts of fashion accessories since I was a very young child. I have made hand bags, earrings, belts, scarves, bracelets, shoe clips and brooches, if it can be accessorised I have created it. My most exciting endeavour yet, is fascinators.

I adore colour, pattern and texture. I use techniques such as crochet and hand stitching along with materials such as wool, feathers, fabric, ribbon and diamante. My fascinators are sometimes exquisite, sometimes quirky.

My designs are individual and one-off; that means each fascinator is completely unique and each piece is hand made with love as if I would keep it for myself.
