## Professional Experience and Curriculum Vitae

I am an illustrator, but I am also a business partner to my clients. I solve problems, I deliver visual solutions that are creative and beautifully drawn. However, one of the most important skills I possess is that I take great care of my customers. I answer my phone, I reply to emails promptly and I meet my deadlines while staying on budget. Yes I am an artist, but I am a professional as well.

I was formally educated in illustration at the Pacific Northwest College of Art. However my real education came from years of working for clients, honing my skills and gaining valuable experience illustrating and designing for real people.

I am a Portland, Oregon Illustrator, yet my clients are from all over the United States.

Along with my professional Illustration, my personal artwork has sold nationwide on products, graced juried calendars, been included in a deck of art cards, sold as posters online as well as being selected to represent Aquent Talent on their annual calendar.

## Previous Clientele

Nike  
Crayola  
Microsoft
