Professional Experience and Curriculum Vitae

I have over 25 years of experience as a fulltime freelance illustrator. My style is classic pen and ink, influenced by woodcut and engraving. I've been working on the Mac since 1995, and I produce vector or pixel based images in whatever format and software my client prefers. I specialize in nature –animals, plants and people –the environment, and organics, so my work is often used in packaging and logo illustrations.

Previous Clientele

I've worked with businesses, advertising agencies and graphic design firms all over the USA, both large and small. My most recent work included packaging illustrations for a rebranding project by Landor, through their Sydney AUS office.

Awards and Accolades

Awards and Accolades

My work's been in all those mags like CA, Print and Graphis and it's won AIGA awards and such. It's been praised on drawn.ca, designporn and similar sites.
