Professional Experience and Curriculum Vitae

In 2000, I moved to New York City to work on a feature film. Since then I have been working in film, television, and commercial production. After a few years I also began freelancing as a graphic designer and in advertising. My artwork has been featured on Nickelodeon, CBS, and Logo. In 2010, I was chosen as a Week One Winner of Adobe's 5 Weeks of 5 Competition.

Because my background includes management and creative skills, I am able to think outside of the box when problem solving. I have the ability to come up with a creative brief, design a plan of action and follow it through fruition.

Previous Clientele

Please kindly get in touch for more information.
