Professional Experience and Curriculum Vitae

Klaudia Kost is a visual artist from Berlin (Germany) born in 1986 in Poland. Mainly working in graphic design and illustration, but also other visual arts (like graphic art and painting).

artistic statement:

I'm impressing and expressing myself in everyday topics/landscapes. Looking for maximum in minimum.

Collecting moments, transferring them then throw my perspective and filters of perception.

Mixing objects with their unnatural habitat to build emotional tension and composing shapes and colours mainly to focus on strength of simplicity.

Achieving strong effect through reduction.

Mainly photoshop, but also traditional techniques (ink, paper, etc.)

Tangible effect of dusty watercolours on the paper surface, shiny ink line or rough pencil. Depth of black colour in graphics, bit dirty lines and sketchy style...

Around feelings which caught me somewhere unexpectedly hit with emotional charge

Action-inspiration and impression-expression.

I'm also doing illustrations mainly as a comment of surrounding reality. subjective reality.

Throw artworks I'm displaying my introverted sensations.

What's moving me and trying to move others.
