Professional Experience and Curriculum Vitae

I am a Concept Designer and Cross-media Art Director with 11 years experience working for international advertising agencies.

I have been responsible for key clients developing winning ideas to meet the needs of every single product.

I work on all steps of the advertising process, from the creative concept to the final implementation, serving as a team leader for photographers, visualisers, designers, providers and business relations with clients.

A good eye for detail, passion and team spirit make me the right person to build creative teams, achieve tangible results and meet the client's needs.

My aim is to expand and share my experience, knowledge and skills with international companies to ensure their growth and successful management of clients.
