Professional Experience and Curriculum Vitae

I focus on creative and art direction within multiple digital disciplines. Very often "shipping" many of the ideas myself. I honour simplicity but very much value attention to detail. Having started out properly in the so called world of "advertising" in around 2007, I have aimed to gain hands-on experience in digital media production, creative/art direction and strategy & planning. I'm also founder of Striker Multimedia

Previous Clientele

STV, Scottish Sun, BP, Robert Gordon University, News of the World

Awards and Accolades
