Professional Experience and Curriculum Vitae

I am a Documentary Photographer specializing in working with nonprofits in Africa as well as a photojournalist. I have just returned from a 5-week trip to southern Africa where I worked with NGO's in South Africa and Madagascar photographing their work in the field. I have been shooting for a few years and have been traveling to Africa my entire life. From living in a Francophone African country for 4 months, I am fluent in French. I am passionate about capturing compelling portraits of people of all walks of life such that they are portrayed with dignity. I have a deep commitment to making a difference as an artist and to being a vehicle for social change, inspiring us to create a world that works for everyone.

Previous Clientele

CARE International
Crossroads Halfway House for Women
Agape International Spiritual Center
Flashes of Hope
Hollywood YMCA
