Professional Experience and Curriculum Vitae

It was a very long way for me to become a professional in the graphic design sphere. I have been working as a graphic designer for about more than 8 years. Today I work as a freelancer for different companies from different parts of the world and I will be very glad to become a part of your creative team to share with you the happiness of the work done together.

If you want to see more of my works and find something new about me you should look at my personal website. Thank you in advance for giving me an opportunity to work with you!
