Professional Experience and Curriculum Vitae

I am a very detailed oriented Designer, always trying to tell a story through my work while keeping the essence of the initial idea and inspiration throughout the project. I want to be part of a successful design team. I'm confident that my skills and attention to detail would be a great asset to any firm.

Marin Beach Apartment

Inspired by Martin Wiener's unusual, almost exotic pastiche, stone taken center stage in this project in order to bring high style into this Marin Beach apartment. By mixing the glaucoma, yet warm style of the quartz, top, tile, and the modern with a modern style, a modern style that brings warmth and ease to the room and into the space. A combination of dark stone wood, metal finishes, acrylic furniture pieces, glass chandeliers, and accentuating objects throughout the apartment a clean space that is modern but not cold, warm but not edge will be achieved. A neutral background will serve as the building for an energetic, yet calming ambience, accentuated with splashes of pink, blue, yellow, and black drawn from the warm, neutral as pieces and inspiration inherent for the design theme. Creativity and innovation will be added to this style's approach through curved, organic shapes and interesting textures that underline the fusion of Mid-century style with contemporary details.
