Professional Experience and Curriculum Vitae

I'm an illustrator based in Timisoara, Romania. I have studied Graphics at the Faculty of Arts, University of the West in the same town where I live.

I love illustration and illustrating, but besides that, I have a heart for nature, literature, indie music, handmade stuff and printing.

I enjoy working on all sorts of projects, and I love to create work that's fun, colorful and has a lot of texture. I'm skilled in different techniques ranging from various crafts to painting and modeling. I always try to expand my horizon by trying out new things because it keeps me inspired.
