Professional Experience and Curriculum Vitae

The following portraits are created using a portable flatbed scanner and then collaged together to make one large portrait.

On this project, I attempted to examine portraiture through a series of detailed images. Detailed parts reveal more of the whole. The image capture is sharply focused on a very narrow depth of field. The files are very large, and are meant to be shown near real life size.

Previous Clientele

Please kindly get in touch for more information.

Awards and Accolades

LONNIE DUKA received his training in photography and film making from New York University film school. In 1985 Lonnie founded his company Lonnie Duka Photography. For more than 25 years Lonnie has enjoyed a rich and dynamic career as a still photographer, building a body of work that has received national and international recognition for creativity and excellence including the Museum of Photography George Eastman House and the Newport Harbor Art Museum/Orange County Museum of Art. Lonnie's work is also on public display at the Sempra Energy headquarters in San Diego, California and in the corporate offices of the Irvine Company in Irvine, California. B. 1951 QUEENS, NEW YORK
Lives and works in Southern California
