## Professional Experience and Curriculum Vitae

Luca Molnar is a graphic designer and illustrator from Hungary. She has worked as an illustrator since 2006, with her works being featured in magazines all over the world and she has worked for all kinds of companies.

'My works have a very futuristic feeling most of the times. I find it fascinating to create images of something, which doesn't even exist in our world yet. However at the same time I'm inspired by ancient cultures such as Egypt, Maya or Celtic. I love mixing futuristic elements with very old symbols.'

Luca Molnar has a style which no one else has in the world. Her designs are colourful, shiny, luscious and extremely detailed. She draws inspiration from all kinds of different cultures such as Egypt, India and South-America.

Most of her illustrations are made by hand then completed in Photoshop or Illustration. She also likes to use photo manipulation as part of the final illustration

Luca is also member of the KDU (Keystone Design Union).

## Previous Clientele

MTV Networks  
Universal Music  
Ogilvy  
Shaun Robinson (Access Hollywood)  
KDU  
Urban Melodic Entertainment
