Northern California Based, On Location Worldwide...

Location! Location! Location! From magazine portraits and features to advertising and annual reports, most photography is on location. And that's where you'll find me.

My work has appeared on the pages of many retail and trade magazines, including Fortune, Business Week, Entrepreneur, Sierra, Success, Wall Street Journal, Los Angeles Times, and so many more. Specializing in people and location subjects, my commercial work has included many notable clients, from AT&T and Apple to the Home & Garden Network, Wells Fargo Bank, and Xerox.

From a photojournalistic approach, to major location productions, I am a versatile photographer who specializes in being there and making it happen. For people, location, hospitality, or digital illustrations, check out my web site now...  
You Gotta See This!
