## Professional Experience and Curriculum Vitae

Maxine Lee is a UK based illustrator and designer, working freelance since graduating with a BA(Hons) in Digital Arts in 2004 and working as a visiting Lecturer in Graphic Design and Multimedia.

Using a variety of techniques to achieve depth and texture, typography and colour are built up throughout the process of creating each illustration to give the effect of looking through a window or into the subject's mind. Often, thought provoking statements are mixed with colourful images to encourage the viewer to look at things differently and see something new each time they look.

Maxine's inspiration comes from many people, places and things but has deep roots in fashion, children's books and pop-culture.

## Previous Clientele

Nokia  
Sunday Express
