Professional Experience and Curriculum Vitae

Graphic Designer and artist

I have worked with graphic design since 1988. Trained by Danish Book Association and the Graphic Arts Institute.

Has been with different agencies and LEGO System A / S, part of my job was to hand draw illustrations.

Since 1999 - independent company

Works with: Logo, letterhead lines, brochures, product catalogs incl. production planning, car advertisements, packaging design, advertising, website design / setup, posters, CD covers, flyers, calendars, etc.

I have always drawn and painted

I started with illustrations in a newspaper. Then layout for vehicle catalog "car key" where I drew / illustrated all lay-outs. A major project on LEGO with illustrations and jumped so with the digital wave. In some years immersed in this world creative possibilities.

After some "digital years" I started with drawing and painting seriously again. I've gone to Aarhus Art Academy, teaches Ieva Vitola Lundquist.

The inspiration for my paintings are everywhere

- Figuratively, all I see around me!
- Abstract, color depth and ensemble
- Imagination that just gets to play ...

I experiment a lot with colors and designs, so I have in development / experimentation signs made ??some different series ...

Previous Clientele

Works with: Logo, letterhead lines, brochures, product catalogs incl. production planning, car advertisements, packaging design, advertising, website design / setup, posters, CD covers, flyers, calendars, etc.
