Professional Experience and Curriculum Vitae
Million Dollar Design is an illustrationduo consisting of Pauline Teunissen and Anneloes van den Bergh. Together we wander the world of illustration and mix our styles together to create romantic and elegant work, sometimes with a rough edge. We love to mix different materials like paper, fabric, photography and drawings to give our illustrations a rich and layered look. The projects we work on vary from events to magazine illustrations to advertising to bookcovers.

We find inspiration almost anywhere, and therefore we like: fairytales, nonsense words, pop-up books, human cannonballs, a dark forest, animation, cups of tea, birds, thinking outside the box, things that aren't what they seem to be, grandma's crocheted pillows, imagination, licorice, expression, dressing dolls made out of paper, vintage typography, KitCat clocks, flamencodancers, snow, shoes, "hoempapa" music, conceptual art, secrets and circusfreaks.
