Professional Experience and Curriculum Vitae

Eclectic home-furnishing curiosities and specialist in carbon filament light bulbs

London based Mimime is an eclectic mix of vintage inspired curiosities. Combining one of a kind items, with sought after vintage styles.

East London based Mimime was founded by Central St. Martins graduate Hattie Hollins, with her love for 'all things visual' resulting in the creation of this bespoke two tired business.

The first, more prominent aspect of Mimime is as a retailer and supplier of vintage style, hand mounted carbon filament light bulbs within the UK. With strong relationships with both manufacturers and trade clientele, one might even consider us a Specialist!

The second face of Mimime focuses on retailing bespoke, vintage inspired homeware items; all of the bespoke items for sale are created by the creative folk of London and made to order.
