Professional Experience and Curriculum Vitae

Gente Joven y con ganas de aprender, así nos podríamos definir. A nosotros nos divierte la fotografía y a la vez nos sorprende las cosas que vamos descubriendo según realizamos nuestros trabajos.

Tras cursar fotografía artística y fotografía digital, habiendo tenido otras muchas asignaturas de arte y a través de la carrera de Arquitectura la fotografía y el diseño es algo fundamental en nosotros.

Young People and eager to learn, we could define us. We enjoy photography, and the surprising things we discovered as we do our jobs.

After studying digital and artistic photography, having many subjects of art, and through our architecture degree, photography and design is fundamental to us.
