Professional Experience and Curriculum Vitae

We are an award-winning audiovisual research and digital design studio, specialising in immersive interactive art installations.

Our studio combines many disciplines to work at the intersection of art and technology. These include software development, music composition and sound design, interaction design, lighting, visuals, and industrial design. We specialise in creating interactive experiences for museums and cultural institutions, corporate brands and advertising agencies. Services that we offer include: Museum and Exhibition Design, Interactive Art Installations, Architectural Projection Mapping, Audiovisual Systems Design, Consulting and Technical Advice.

MindBuffer was founded in 2010 by Joshua Batty and Mitchell Nordine and now includes Tom Gowan. We are based in Berlin, Germany and also in Melbourne, Australia. We would love to discuss your next project with you, get in touch.
