Professional Experience and Curriculum Vitae

Two people who met accidentally, with no formal design background but fascinated with color, creation and craft bonded over two common threads — NOT WANTING to be in the corporate rut and WANTING to go to work everyday!

A journey that started in early 2011 in Mumbai at the Kala Ghoda Arts Festival with a range of home accessories like coasters, trays, book ends and picture frames has seen many additions in the last eighteen months. Today, we have table cloth, curtains, lamps besides personal accessories like notebooks, jute bags, clutches.

The recently launched 'Moira Exclusive' is a range of hand-made, handstitched sarees. Most sarees are one of a kind and we don't have more than a few renditions of any design. The idea is to create a range that involves a lot more designing and personal touch whilst creating a fair and profitable opportunity for women from lower income groups who are making these sarees happen!
