Professional Experience and Curriculum Vitae

Working In Madrid, Spain, I have extensive experience with both local and international brands, for whom I've created award winning material in several advertising contests. I do believe that advertising has created its own language and I like exploring its possibilities as far as this don't make us loose the essence of the ideas -I'm obsessed with concept based advertising. I'm also conscious that, although we may share the tools of artists, advertising is not an art; we're just creatives, not creators.
