Professional Experience and Curriculum Vitae

A Creative 3d design agency for exhibition, retail and product design.

A Creative 3d design agency for exhibition, retail and product design. Whether it's a small one-off or additional display, full exhibition design, bespoke retail stands or interiors we love to work on projects of all shapes and sizes. We have worked on numerous projects with varying budgets and we believe that clear creative solutions don't have to come with a huge price tag.

We deliver innovative ideas to suit any size of project or budget. We have produced various retail displays, exhibitions, trade show stands and interactive exhibits for museums, shops, retailers, brands, organisations and marketing agencies alike.

If you have a project that needs some added oh then why not get in touch or take a look at what we've been up to? hello@oh-design.co.uk
