Professional Experience and Curriculum Vitae

I have 10 years of experience within the design sector and, since 2008, have been Founder and Creative Director of Oliver Designs. I have worked with all types of clients; from start ups to large corporates, product design and development projects to full scale e-commerce web designs and developments. I work with the majority of OpenSource CMS development platforms and am proficient in Adobe Creative Suite.

My primary area of expertise is in the design and development of e-commerce and alternative CMS sites for start up businesses, SMEs and also large corporates. On occasions, I work alongside other design agencies in order to complete external project work. I also operate both within the UK and Internationally.
