Professional Experience and Curriculum Vitae

I'm a Graphic Designer and Artist based in Santiago, Chile.

I have explored for more than ten years various visual art disciplines such as painting, graphic design (creating several websites, corporate identity imagery, editorial projects, etc) and illustration.

I've been blessed with the opportunity to live and travel in South America, and I also lived several years overseas mainly in New Zealand, Australia and Indonesia. I love to travel and explore new cultures that enrich my creative process.

Spirituality, religion & Yoga, as well as landscapes and seascapes are my sources of inspiration.

Please take a look at my website www.vastmind.com and follow me on facebook www.facebook.com/vastmind so you can take a look and share more of my work.

Namatse,

Pablo Fierro
