Professional Experience and Curriculum Vitae

Pam grew up in the photography business, hanging out with professional shooters at her grandfather's camera shop at the age of five. So following in his footsteps, she became passionate about the magic of capturing beautiful images. Pairing her love for photography with her other great love, traveling the globe, Pam has worked to develop a specialty in the luxury resort, cruise, spa and hospitality markets. Capturing lifestyle, food, architecture and details inspired by delicate natural light, Pam's style is expressive and warm.

With a background that includes art direction, graphic design, video direction, production and art buying, Pam collaborates with a great crew and adds video and motion into the mix to create gorgeous branded image libraries that are fun, colorful and full of light.
