#### **Professional Experience and Curriculum Vitae**

Creativity is much more than just a skill, I believe it's my way of life. I bring my creative thinking and problem-solving abilities to every project I do. Whether it's Photography, Digital Art, or Cinematography I want everything I do to be a "piece of art". A friend of my said "Audrey everything you do doesn't have to be a piece of art". I had to disagree with this option, it is important that I bring my best in everything I do.
