Professional Experience and Curriculum Vitae

Photographer Bio

My passion for the outdoors has been life long. As a child my father and I were in the woods hunting or on the water fishing at every available opportunity. My Love of photography began when I spotted An Osprey gliding past our boat with an eagle in hot pursuit of the fish hawks recently caught dinner. I was given my first SLR that Christmas. I studied photography at MATC in Milwaukee I have been capturing and sharing my love of our incredibly beautiful North Woods with people since the 1980's.

I moved to the Lakeland area permanently in 1994 with my wife Stephanie. Please take a moment to appreciate the wild lands with myself and all of the other wonderful artists and craftspeople of Northern Wisconsin. In Milwaukee I learned the craft of wedding and portrait photography.

I also enjoy capturing wedding memories and outdoor portraits for those in our state and region who seek my services.
