Professional Experience and Curriculum Vitae

My name is Hattie Stewart and I am a London based Graphic designer with over 5 years of experience in the industry! I am a graduate of Nottingham Trent University where I received my BA degree in graphic design in 2009.

Since entering the world of work I have worked with a wide variety of different clients on a vast number of different projects, this has given me a good range of skills which I can use to complete almost any creative challenge. I would describe myself currently as a mid-weight integrated designer!

I have worked independently on freelance projects and as part of a team in-house. I am looking for freelance and contracting positions where I can get stuck in! I am passionate about both web & print design and am keen to learn new things in order to further my skills in these areas. I love new experiences, travel and culture, am a keen skier and lover of gaining inspiration from everything I do and everyone I work with.
