Professional Experience and Curriculum Vitae

We're Quirk, a boutique multi-disciplinary creative studio in Singapore. Quirk creates bespoke intelligent, compelling and successful online and offline strategies like web design, graphic design, flash animation, content management system (CMS) development, ecommerce, corporate identity and email marketing services with a human centric approach.

Quirk was founded with one goal – quality in everything we do regardless of the size of the projects or clients. Our culture is outlined by the fact that we truly love what we do. Habitually inquisitive and continuously experimenting and reinventing, we immerse ourselves in all disciplines of visual communications everyday.

Q3 : Quality + Quintessential + Quaint = Quirk
