Professional Experience and Curriculum Vitae

My work is a bridge between worlds of memory and metaphysics making the unseen shapes that caress us behind the veils of reality viewable. My world is a place where color, form and line dance and collide on the canvas together creating possibilities. I will use my talent and creative mind to bring my ideas to the world through work I do for clients as well as through personal endeavors. All of my work is an extension of who I am and how I think, and a portal backwards for each viewer into the internal cerebral gears that are constantly turning in my head.
